Inazuma Eleven GO for Nintendo 3DS Game Play Impressions / Video (1 of 1)Harpie A lot of you should already know that I'm a huge fan of Inazuma Eleven, even if it doesn't have a very long history. I'm also a huge fan of a much more recent game, Pokémon Sun and Moon. I think they took this game quite seriously, and they even gave you a special area in which you can do tactics tests. I also quite enjoyed watching a couple of videos of them doing video guides for it. Because of this I wanted to give this game a try because I was quite curious about it. The game is quite simple, most of your job is spent selecting a team and joining them. There's usually a story about how your team was formed, but it doesn't feel like it tries to be a story quite as hard as Pokémon or most other games. You're not helping little cuties and you don't have to do a ridiculous amount of talking when you join up. You're just helped by a little one. I think this was one of the elements that made me love this game, this little Pokémon-esque quality. Inazuma Eleven GO for PC Game !
